Qinter

[image]

I support gay ships and people that are gay, but I don't ship this. More than moonblii yes. But no I see them as just friends nothing more not like WINTERWATCHER and UMBLI!

Trutlewatcher

(Trutle and moon) (couldn't find a piture)
ME:

[There should be a GIF or video here. Update the app now to see it.]

Bramblestar X jessy

[image]

Me:

[There should be a GIF or video here. Update the app now to see it.]

I ship squirrelflight X bramblestar!
I really don't like the ship. Bramblestar only pretended to like her I think to make squirrelflight jelous.

Daisy X ferncloud

I don't ship it. I ship ferncloud X Dustpelt. But I also don't ship spiderleg
x daisy.

Mothwing X leafpool

[image]

YESSSSSSS!! I HARD CORE SHIP IT! ITS MY FAVORITE SHIP IN THE SERIES! ITS MY OTP IN THE SERIES!!!!! THERE MADE FOR EACH OTHER

Tawnypelt X feathertail

[image]

I don't really remember the 2nd series that well, I haven't reread it since I don't really like it. But, all I do remember Feathertail's death (RIP) and crowfeather crying over her. So I ship crowfeather X feathertail and Rowanstar X tawnypelt as for that one, it seemed they would risk there lives for each other. So, i don't ship it cause I ship other ships

Bone X brick

[image]

I ship it! In rise of scourge, they were alone together when they found tiny (scourge) maybe they were going on a walk togetherrrr either way, I ship it

Ravenpaw X barley

[image]

Is this even a question? OF COURSE I SHIP IT! It's so cute! And almost in every page in ravenpaw's path they were seen together! And in ravenpaw's farewell, they were shown to travel together. I SHIP IT SHIP IT!!!!!!!
I found vines that portrays them!

[There should be a GIF or video here. Update the app now to see it.]

Tigerstar X leperodstar

[image]

Ever wondered why tigerstar can't seem to keep a girl? Becuase he likes boys not girls
Tigerstar X Darkstripe shipper.
So. No I don't ship it

Tigerstar X darkstripe

[image]

I SHIP IT! SHIP IT! I think its so cute there my evil bois. There perfect for each other!

Ivypool X blossomfall

[image]

I ship it! Better than blossomfall and thornclaw (there like, 3 years apart or something) and fernsong X ivypool. SHIPPPPP IT

Winterjou

[image]

Nope. Nope. NOOOOOOOOOOOOOOOOOOO

[There should be a GIF or video here. Update the app now to see it.]

Nope nope. Trutlejou and WINTERWATCHER for life!

Whirlnami

[image]

Me:

[There should be a GIF or video here. Update the app now to see it.]

[There should be a GIF or video here. Update the app now to see it.]

I'm the person running away from the ship, and the person saying why are you running is the ship.
WHIRLPOOL FREAKING TRIED TO MURDER TSUNAMI!!!!!!!!!!!!!!
SO NOPE NOPE GOD NO GOD NO GOD NO
NOOOOOOOOOOOOOOO

Claynami

[image]

No. Nope. Like sunnyflight, you shouldn't love someone that is basically your sibling. Plus, cleril and ripnami are the OTP.

Tallstar X jake

[image] [image] [image]

[There should be a GIF or video here. Update the app now to see it.]

Me:

I added a gay vine becuase I can and its a gay ship.

Whirlpool X anemone

[image]

NOPE. I guess out of all the sisters, I pick her and him. But no! Whirlpool deserves to disappear(but that's already happened, so it's none of my concern) But stop TRYING WHIRLPOOL YOU WILL NEVER BE KING YOUR DEAD ANYWAYS

Jayfeather X stick

[image]

YES! I ship it it's clear Jayfeather loves his stick and when they 'broke' up (literally) he was sad. (Lol this is clearly a joke or.. is it? Do I actually ship it?)

Sunny (single sunny)

[image]

I ship this. SUNNY IS TO GOOD FOR ANYONE!!!

Graystripe X firestar

[image]

No I don't ship it. Firestar X sandstorm for life and silverstream X graystripe for life! And firestar and graystripe are just best friends nothing more!

Fireleaf

[image]

Nah. I don't ship it. In the first book I did, but after book 2 firestar and sandstorm started to grow on me. And to me, this is just a little school crush

Qinterwatcher

[image]

I guess it's fine. If it's moon X winter X Qlibi. So yes I don't hate it but I don't love it. It's MEH.

Moonjou

[image]

Meh. It's ok. Better than trutlewatcher, moonblii, and winterjou. This would be my second choice for moon. But WINTERWATCHER and trutlejou forever!!!!!!!!!!

Face revel

[There should be a GIF or video here. Update the app now to see it.]

APRIL FOOLS!
YOU JUST GOT RICKED ROLED!!

Art for a roleplay

[image]

Someone else drew this for me! Art not mine!
ruddergrl
Art for the roleplay

Fallenholly

[image]

BACK TO SHIPS

I ship it! There so cute #fallenholly forever
But mothpool is still best ship

Crowfeather X leafpool

[image]

I guess it's ok, but I'm on the feathertail X crowfeather and MOTHPOOL side!!!!!!

Thornmover

[image]

I thought it was cute. Sad it didn't work out. Sad for thorn and sad for stonemover.

Articslayer

[image]

I liked foleslayer x attic... but it failed. I fell sad for foleslayer it didn't work it. Sad that there relationship caused a 2,000 year old war between nightwings and icewings. Sad for Arctic for being killed (won't state what I think about him being killed cause I don't wanna cause a fight.), sad for whiteout for being enchanted into liking arctic and obeying him no matter what. Sad for darkstalker that he had to kill arctic to save whiteout sad for- ok I think you get it.

Clifflet

I ship aklut and cliff even if they haven't met yet. They seamed like they would be a cute couple! Well, when they get older, of course let's hope tui makes them meet in the books!

Smorn

Thorn and smolder. I ship it. If thorn must have other dragonets than I would want it to be with smolder. Smorn is better than sunny and smolder, that's for sure!

Glornami

I don't ship any of the dod of destiny together it's just... weird to me besides, ripnami and glorybringer forever!!!!!

Sunkat

Nope. Don't like it. They haven't even met... maybe they could, but.... SUNNY IS TO GOOD FOR ANYONE!
-10/10

Scourge X ashfur

[image]

No. I don't ship it. I don't even know why people ship it have they even interacted? It's just..... weird for me. Sorry to those who ship it

thank you!

[image]

How did this happen? But thank you!

Anemone X tamarin

[image]

YES. I SHIP IT! One of the best ships. I SO HOPE IT BECOMES CANON!!

Tamarin X Pike (pikemarin)

I also ship this. Can't a person ship two ships at the same time?

Lighting tail X thunder

It's so cute! I love it! I'm re-reading dawn of the clans and I forgot how much I love this ship! It's so cute! I love it!

Shadowpaw X rootpaw (lost stars)

I ship this! It's so cute to me! My first new ship in the new warrior cat arc!

Rootpaw X bristlefrost (lost stars)

It's ok. But I like rootpaw X shadowpaw more. But I don't hate this ship. I just perfer rootpaw X shadowpaw.

Sherewpaw X squirellflight

[image]

I'm being honest, I actually ship this more than ashfur X Squirrelflight or Squirrelflight X Bramblestar. I loved this ship, sad that shrewpaw died and Squirrelflight is stuck with Bramblestar.

Ashfur X squirelflight

[image]

I like this ship more than Bramblestar X Squirrelflight... please don't kill me.
I I think it was good, and cute, before ashfur went crazy and tried to kill her whole family

Squirelflight X bramblestar

[image]

I don't like it, I mean, I guess it's ok, but I don't think it's THAT good. I just don't like Bramblestar (please don't kill me) I find him boring, and Squirrelflight shouldn't be with him.

Tumber

[image]

Turtle and umber? Never even heard of it before I went on the wiki, and read the comments kinda see it, but I see them as they were just friends, before umber left.

CloudtailXbrightheart

[image]

I love this ship, I mean cloudtail loves brightheart even though she's missing an eye.

Star Flower X clear sky

[image]

I like this ship! Not more than brightstream or clear sky, as I thought they were pretty cute and that if bright stream lived maybe clear sky wouldn't be a- um, jerk but than again the whole series would probably change if bright steam lived- becuase clear sky wouldn't go with storm and thunder wouldn't be born so there would probably be no thunderclan or at least a different name for them.

Clear sky X storm

[image]

Nope. Worst ship with clear sky in it, storm deserves better than clear sky, and clear sky was a jerk to her ok, maybe he wasn't a jerk just a little bit over projective and a jerk to other cats BUT her, but still don't ship it.

Clear sky X bright stream

[image]

I actually ship this, I thought it was cute and it was sad when bright stream died I mean carried of by a hawk (also brought me back to snowkit's death) only she was carried as she was expecting kits and didn't even get to be buried near her tribe/clan mates how sad is that? But yes, I ship it.

Turtle tail X gray wing

[image]

I love this ship! I love it! But I also like gray wing X slate, so I'm fine with both. But I still love this ship!

Gray wing X slate

[image]

I also love this ship, I'm glad gray wing found someone to love after turtle tail.. died... and found a mate before he... died...

Suntail

[image]

Nope. Nope. No. I DO NOT SHIP SUNDEW AND SWORDTAIL I'D RATHER SHIP SUNDEW AND CRICKET THAN THIS. Besides Sunlow, lunatail, and blicket forever!

Star flower X thunder

[image]

I shipped this before, but then star flower betrayed thunder and none hurts thunder!!!!!

Sundew X cricket

[image]

I ship this more than suntail, but I still don't ship it. I like Sunlow and blicket. Not cricket X sundew or Sundew X swordtail. So no, I don't ship this.
But I found this map that someone is making for sundew and cricket, haven't seen it yet as it's not out yet, but it still looks good can't wait for it to be competed!

[There should be a GIF or video here. Update the app now to see it.]

Umberjou

[image]

Interesting, I must say but i ship turtlejou and umbli.

Clear sky X petal

[image]

No. I don't ship this. I like clear sky and star flower, just becuase clear sky saved petal doesn't mean they have to be shipped.

Jadged peak X holly

[image]

Yes! I love this ship it's so cute it's like brightheart and cloudtail, holly was there for jadged peak when he fell from the tree, like cloudtail was there for brightheart when she losted her eye. I love this ship!

Fatespeeker X squid

[image]

Nah not really. I mean, it's kinda cute but I like starspeeker.

Hawkforst X ashfur

[image]

Not really. I don't really ship it, I mean it COULD work, but I would rather ship hawkfrost and ivypool and ashfur and Squirrelflight at least before ashfur went insane and tried to kill her whole family.

Tigerstar X mapleshade

[image]

Sorry, but no. I don't ship it. And I like tigerstripe, and mapleshade doesn't need anyone she's cool alone.

Appledusk X reedshine

[image]

Nah appledusk deserves NONE!!!! He deserves to die alone. He deserves to be alone and in the dark forest.

Thank you!

5,000 something reads, 381 votes, and 803 comments. Never expected THAT much! Thank you everyone who toke your time and still is, just to read my opinions on ships.

4: Glorybringer
3:: Cleril
2: starspeeker
1: winterwatcher, UMBLI, and turtlejou.

Least favorites:
5: sunnyflight
4: winterjou
3: purtle
2: turtlewatcher
1: any ship with whirlpool in it

Now, if you love any of these ships, I don't hate you I hate the ship.

My top 5 and least favorite warrior cat ships

Favorites
5: firestorm
4: ravenpaw and barley
3: tallstar and jake
2: brightheart and cloudtail
1: mothpool

Least favorites:
5: Bramblestar and jessy
4: clear sky and storm
3: scourge and ashfur
2: cinderpelt and scourge
1: mapleshade and appledusk

Again, if you like the ships I don't hate you, I hate the ships

Bramblestar X ashfur

To lazy to look up pictures right now.

No.. why is this even a thing? I don't ship it.

Squirellflight and feathertail

Why, I don't see this at all. Sorry, it's true

Turtle tail and tom

Again, to lazy to look up pictures right now.

NO! Tom was a jerk to turtle tail and if he wanted the kits, maybe say "what about I have one/two and you have one/two." Something like that instead of kitnapping them. I just don't like Tom.

feathertail and nightcloud

Nah. Besides, I ship crowfeather and feathertail and mothpool. So no, I don't ship this

Lynxter

[image]

I suppose it's good. But I like winterwatcher. And don't try to get me to not ship it, it won't work.

Just to advertise Taylor Swift new album

[There should be a GIF or video here. Update the app now to see it.]

My favorite song in the album

BlazeXglaicer

I suppose it's cute. I don't hate it but I don't like, LOVE it. Suppose it's fine.

SashaXtigerstar

It's ok. But I never actually read the manga so idk much about this ship.

SpotfurXStemleaf

[image]

A update!!! That's right.
It's cute I must admit. I ship it.

Bumblestripe X Dovewing (updated)

I no longer ship it, it is wrong how Bumblestripe tried to make Dovewing have his kits and he never even apologized.

Dovewing X Tigerheartstar (updated)

This isn't my favorite ship, not a huge fan of the later forbidden relationships. Because its kinda common now, it happens like every chapter. Why couldn't a main character have a relationship in Thunderclan? Only Squirrelflight didn't. But it is better then Dove X Bumble

Update

Late update, this book probably won't be updated anymore unless some new ships are introduced. But a few of these are outdated, and I'm not really someone who cares much about shipping anymore. Idc what you ship as long you aren't rude about it.
